Jubilee Year-Pilgrims of Hope

One aspect of our Pilgrimage on Sep 13th will be the Music throughout the afternoon.

Psalm 95 tells us to: *Come, let us sing for joy to the Lord; let us shout aloud to the Rock of our salvation. Let us come before him with thanksgiving and extol him with music and song.*

We've started learning a new song, Welcome Holy Spirit as we prepare for our upcoming journey and thereby invite the Holy Spirit to take control. The lyrics of the song reminds us that we can forever quench the thirst inside us and in our lives by opening our hearts and minds with "the living water, never drying fountain"

The previous bulletin challenged us by asking how we were preparing for this pilgrimage. But even the best planned vacations can get derailed by circumstances beyond your control: weather, lost luggage, delays, inconsideration person sitting next to you etc. But as the Jubilee's logo shows us, challenges can also present an opportunity to put our trust and faith in God as we focus on the Cross and be that pilgrim of Hope even in times of rough waters.

Reflection:

Think of a situation you may encounter that can distract you from the pilgrim's objective of becoming the best version of yourself, what would your approach be to remain focused?
